

Federal Communications Commission

Hearing Aid Compatibility Status Report (FCC Form 655)

Reporting Period: January 1, 2013 - December 31, 2013

Filing Confirmation Number: 0006102272

Filing Deadline: January 15, 2014

FRN: 0003290673

Filing Date: 01/15/2014 03:29 PM

General Report Information

Type of Company

Service Provider

De Minimis Exception

Did you offer any handsets to subscribers in the United States during the reporting period? Yes

Have you been offering handsets in the United States for at least three years prior to the end of the reporting period? Yes

Date that you began offering handsets in the United States

Are you a small entity? No

Were you a small entity at any time during the three years prior to the end of the reporting period? No

Date that you ceased to be a small entity?

Company Information

Company Name: Verizon Wireless (Cellco Partnership)

Brand Names: Verizon Wireless

PO Box:

Street Address: 1300 I Street, NW Suite 400 West

City: Washington

State: DC

Zip Code: 20005

Contact Name: Michael Samssock

Contact Phone: (301) 873-6186

Contact Fax:

Contact Email: michael.samssock@verizon.com

Filing Agent

Is this report being filed by an agent on behalf of a manufacturer or service provider? No

Product Labeling

Do all hearing aid-compatible handsets include labeling? Yes

Explain:

Do all hearing aid-compatible handsets that are capable of voice communication over any air interface or frequency

band that does not have hearing aid compatibility technical standards under ANSI C63.19-2007 include the required language disclosing that the handset has not been rated for hearing aid compatibility with respect to such operations?
Yes

Explain:

Do all hearing aid-compatible handsets that the manufacturer also tested and found not to meet hearing aid compatibility requirements under ANSI C63.19-2011 for one or more operations that are not covered under ANSI C63.19-2007, include language informing users by clear and effective means that the handset does not meet the relevant rating or ratings with respect to such operation(s)?

N/A

Explain:

Do all handsets that are capable of use for Voice over LTE, and that were certified for inductive coupling capability under ANSI C63.19-2011 without being tested for inductive coupling capability over VoLTE, include language disclosing that they were not tested with respect to this operation?

N/A

Explain:

Do all handsets that meet the criteria for an M3 rating by allowing the user to reduce the maximum power for GSM operation in the 1900 MHz band include the required disclosure?

Explain:

Public Website

Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those models, and an explanation of the rating system? Yes

Website address: www.verizonwireless.com/aboutus/accessibility/products.html

Explain:

Consumer Outreach

Describe consumer outreach efforts in the past 12 months: The Verizon Wireless website includes information relevant to HAC. The website includes a description of the ANSI standard M- and T- ratings where applicable, and a series of common questions and answers and links to those phones that are HAC compliant. The website includes a regularly-updated chart that lists all the HAC rated devices with their rating. Sales personnel at stores owned and operated by Verizon Wireless have been trained with an understanding of HAC and the phones offered by Verizon Wireless. Sales personnel may also access from the stores via the internet the information contained on the Verizon Wireless website as described above. Verizon Wireless has multiple employees that work on disabilities issues including HAC. Those employees 1) regularly interact with customers who require additional assistance due to a disability, 2) participate in trade shows and educate attendees on the HAC phones offered by Verizon Wireless, and 3) interact with national hearing loss organizations.

Methodology for Functionality Levels

Basic Phone: A voice centric device with messaging capability, some basic phones can web-browse, access social media sites and email. A Basic phone works mostly on 1XRTT or 3G networks. Basic phones can support a camera feature with 1 or 2 Mega Pixels and devices may utilize a key pad, QWERTY, or touch screen.

Smartphone: A voice, messaging, web browsing and e-mail centric device that can access social media, video and application store sites as well as perform application down loads. A Smartphone can support platforms like, iOS, Android, Blackberry and Windows. They can operate on the 3G and 4G networks.

Report Remarks

FCC Form 655 does not allow remarks to be added to particular Labeling questions if they are answered "yes" or "N/A." Verizon Wireless answered the question regarding VoLTE "N/A" because it did not offer subscribers VoLTE service in the 2013 reporting period.

You have reported the following handset model summary information.

Total number of handsets offered: 60

Air Interface	Fully Hearing Aid Compatible		Acoustic Coupling Compatible Only		Non-Compliant Handsets		Excluded Handsets	Total by Air Interface
	Number	Percent	Number	Percent	Number	Percent	Number	
GSM	28	80%	5	14%	2	6%		35
CDMA	45	75%	13	22%	2	3%		60
WCDMA	8	100%						8
